SECTION X—APPEALS AND PROPOSALS FOR DISCIPLINARY ACTION.

There has been a significant increase in the number of disciplinary cases deat with by the Commission during the year under report.

2. While the Commission dealt with 340 cases (including 56 cases pending as on 1st April 1980) during the year 1980-81 dealt with 401 cases (including 107 cases pending as on 1st April 1981) during the year under report. Of the 401 cases, the Commission called for the records or particulars in respect of 19 cases and the Commission's advice was communicated to the Government in respect of 291 cases leaving a balance of 110 cases. Of the 291 cases the Commission advised modification of punishment in respec of 23 cases. In respect of 16 out of 110 castes, records on particulars are still awaited.

3. Of the 291 cases on which the Commission's views were communicluded the Government had passed orders on 184 cases, leaving a balance of 107 cases. The Government sought revised views of the Commission in rrspect of 6 cases and the Commission had communicated its views thereon.

4. The average time taken by the Government in making a reference to the Commission, the time taken by the Commission in giving its advice and the time taken by the Government in issuing orders are as follows :

5. Disciplinary cases have necessarily to be considered with great care and, therefore, considerable time is required for examining all the records and reaching a conclusion on the charges and the penalties if any, to be imposed. The Commission has taken steps to see that no avoidable delay occurs in dealing with the cases. Deetails of No. of cases involving charges affecting intergrity and number of cases involving charges other than integrity according to department in respect of Appeal Petition/ Review Petition /Revision Petition Disciplinary action Proposal for iecovery or Reduction in persion are furnished in Tables I, II and III.

6. The Commission also advise on two references relating to grant of injury pension to the Government Servants and two references for legal Assistance. The Commission was consulted by the Government and other appointing authorities in 24 cases in the matter of requests of alterations of date of birth of Government Servants.

7. The tables showing the details of the cases, regarding Appeals/ petitions/Review Petitions/Revision petition/Disciplinary action aed Recovery/Reduction in Pension are furnished in Appendix (E).

SECTION XI—GOVERNMENT AND THE COMMISSION.

(a) Instances of Deviations from the Commissiion's Advice

(1) *Disciplinary Cases.*

(i) The Government sought the views of the Commission on an appeal preferred by a Divisional Forest Officer against the recovery of excess expenditure of Rs. 551.59 incurred by him while carrying out fire tracing operation. The Commission advised that the appeal might be dismissed on the grounds that the representation of the appellant was found to be contrary to facts and that any how there was no satisfactory explanation for his failure to obtain sanction before taking up the fire tracing work.

The Government however issued orders deviating from the Commission's advice for the following reasons :

The expenditure of Rs. 551.59 incurred by the Assistant Conservator of Forests in carrying out the fire tracing work over and above the sanctioned amount of Rs. 23,820-35 is below 2 1/2 per cent only and that the work has been carried out by the Assistant Conservator of Forests only according to the estimated rates. No a case of misutilisation of funds or non-performaoce of work has been made out. The fire prevention work has to be carried out in the scheduled period and it would be difficult for the Assistant Conservator of Forests to wait for prior sanction of the superiors in every such case. Hence it could not be said that there was no satisfactory explanation from the Assistant Conservatir of Forests for his failure to obtain sanction before taking u0 the fire tracing work".

The Government have therefore set aside the orders of the Chief Conservator of Forests recovering the excess expenditure of an amount of Rs. 551.59 from the appellant, in deviation from the Commission's advice to dismiss the appeal.

The Government's deviation from the Commission's advice is not on any matter of policy and hence is not justifiable.

(ii) An Assistant Executive Engineer of the Public Works Department, was placed on his defence before the Tribunal for disciplinary Proceedings, Madras on certain allegations of corruption and malpractices against him. The Tribunal for Disciplinary Proceedings framed three charges, held all of them proved on prepondeence of probability and recommended to Government to dismiss him from service. The delinquent submitted his representation. The Government sought the

advise of the Commission. After carefully considering the records of the case, the Commission advised the Government to drop the proceedings against the delinquent for the following reasons :—

"There is a common infirmity in the Prosecution evidence in respect of all the three charges. The time lag between the date of agreement and the date on which the contractors wanted the delinquent to send the bills to be passed by the Executive Engineer is hardly sufficient to executive enough work to cover the bill amount. The Tribunal explains away this snag by raising a presumption that the works must have been actually started earlier and that the formality of an agreement must have been undergone later.

Commencement as also execution of a work is a physical fact. Had prosecution cared for a fool-proof case, they ought to have let in evidence to show that the works had been started even prior to the signing of the agreement in view of any particular urgency. A mere presumption, however reasonable it may be, loses its validity. To sum up all the three charges have to fail".

But the Government issued orders dismissing the delinquent from service for the following reason :—

The Government have observed that, regarding the first charge, the Tribunal after considering carefully the arguments of both the prosecution and the defendants had come to an independent finding that charge I has been proved against the accused officer with preponderance of probability. After analysing the evidences proved before it, the Tribunal had taken its decision. The general observation regarding the function of the staff in the department by the Tribunal could not be treated as a pre-conceived notion, not could it be said that the Tribunal is prejudiced against the officer. Its findings are based on the appreciation of the evidence in a reasonable manner. Hence its finings could not bel attached as perverse. In its judgement it has held that charge I has been proved eith the materials placed before it. In like manner the Tribuna jad arrived at its findings that Charge II and Charge III had been proved against the accused officer with a preponderance of probability Hence its appreciation of the evidence placed before it should not be said to be unreasonable or perverse. Its genaral observations regarding the work of department have not in any way prejudiced its findings against the accused. Considering all the circumstances of the case, the Government have considered that there are not sufficient and valid reasons to differ from the recommendation of the Tribunal and to accept the views of the Commission. They have therefore decided to differ from the views expressed by the Commission."

The Government have thus deviated from the Commission's views in the disciplinary case and dismissed the deliquent from service, while the Commission advised them to drop all the 3 charges.

The Commission regrets to point out that its advice has not been accepted by the Government in violation of the convention established by the Government themselves that the recommendations of the Commission shall ordinarily be accepted, except where matters of policy are involved or where imperative reasons exist for not accepting them neither of which is applicable in the present case.

(iii) Disciplinary proceedings were instituted against a Staff Nurse of a Government Hospital, for having been negligent and careless in administering an injection to a child, which ultimately led to the dealth of the child The Director of Medical Services and Family Welfare, after considering her explanation imposed on her the punishment of stoppage of increament for one year with cumulative effect. Her appeal to the Government against the orders of the Director of M dical Services and Family Welfare was referred to the Commission for its advice. The Commission advised the Government to institute fresh disciplinary proceedings as the negligence exhibited by her deserved a major punishment. The Government accepted the advice of the Commission. Disciplinary proceedings were instituted against her afresh under rule 17(b) of the Tamil Nadu Civil Services (Classification, Control and Appeal) Rules and the papers were then referred to the Commission for its advice. The Commission, after careful consideration, held the charge proved and adviced the Government to impose the proposed punishement of reduction in pay of the delinquent by two stages for two years without cumulative effect. But the Government, instead of accepting the commission's advice, have issued orders administrating only a warning to the delinquent. The Government have stated the following extenuating circumstancrs for having issued orders in deviation of the Commission's advice :—

1. "Administration of injection is not a duty assigned to staff nurse.

2. The staff nurse has all along been using her left hand in the administration of injection to the patients. Hence there was nothing wrong in her having used her left hand, while administering injection to the child in this case.

3. No untoward incident had happened either before the incident in the case or subsequent to the above incident and this is only a stray incident occurred out of many cases of injection given by her.

4. Needle is not made up of one unit. It is a fused one. As the child was hopping here and there at the time of administering injection, the tip of the needle might have been broken due to ternal factors.

5. ATS injection should have been given to the child prior to the Commencement of operation performed in the Government Headquarters Hospital, Coimbatore, to remove the needle from the Child. Without performing an operation, even if the broken needle was allowed to remain as it was inside the body of the child, there might have been a possibility of preventing tetanus from being developed.

6. The death of child cannot also be directly attributable to the breakage of the needle in the buttocks of the child.''

The Government in the first instance, agreed with the Commission that the punishment of stoppage of increment for one year with cumulative effect imposed on the delinquent by the Director of Medical Services and Family Welfare was inadequate and started fresh procededings under rule 17 (b) of the Tamil Nadu Civil Services (Classification, Control and Appeal) Rules for imposing a major penalty; but have ultimately cancelled the Director of Medical Service order itself.

Thus the orders issued in this case were not in accordance with the Commission's advice and were in violation of the convention established by the Government themselves that the recommendations of the Commission shall ordinarily be accepted to except where matters of policy are involved or where imperative reasons exist for not accepting hem.

The reasons adduced by the Government for this decision are not new but were before the Commission when it made its recommendations to the Government. The Commission views that its advice has been ignored without any justifiable reason.

(iv) In February 1979, the Government in the Revenue Department sought the Commission's advice on the appeal preferred by a District Adi-Dravida Welfare Officer, against the orders of the Board of Revenue stopping his increment for six months without cumulative effect. The District A.D. Welfare Officer was charge sheeted by the Collector of Tiruchirappalli for having made direct payment of trade loan to a party which was irregular and contrary to the orders of the Director of Adi-Dravida Tribal Welfare. The Collector of Tiruchirappali who initiated the disciplinary proceedings held the charges proved and suggested to the Board that the District A.D. Welfare Officer might be dealt with suitably. The Board of Revenue, too, after considering the explanation of the appellant, observed that the District A.D.Welfare Officer had contravened the directions in the order sanctioning the loan and passed orders withholding the increment of the District, A.D., Welfare Officer for a period of six months without cumulative effect. When the appeal preferred by him to the Government against the above orders of the Board of Revenue was referred to the Commission, the Commission opined that the punishment of stoppage of increment for six months without cumulative effect could hardly be considered harsh and advised that the appeal might be dismissed. But the Government passed orders allowing the appeal. No reason was adduced for the deviation from the Commission's advice, except that they had taken a

sympathetic view. The well established convention is that the Commission's advice should be aeeccpted in all cases except where matters of policy are involved or imperative reasons exist for not accepting the Commission's advice. In the instant case, neither any matter of policy not imperative reason existed for deviating from the Commission's advice and yet the Government have chosen to deviate from the Commission's advice in violation of the well and long established convention though the Government had not held the charge as not proved.

(v) A special Deputy Collector (Rehabilitation) Pudukkottai was transferred and posted as authorised Officer (Land Reforms) Kovilpatti and was relieved from the post on 17th May 1979 A.N. But, without joining duty, at Kovilpatti he applied for leave on one pretext or other. Disciplinary proceedings were instituted against him for his utter disregard of the Government orders transferring him from Pudukkottai to Kovilpatti. After getting his explanation he was awarded a 'Censure' by the estwhile Board of Revenue (LR). Against that order, he preferred an appeal to the Government. The Government sought the advice of the Commission. After carefully considering the records of the case, the Commission advised the Government to allow the appeal and set aside the punishment of censure for the following reasons.

The entire period of absence of the appellant and from 22nd May 1979 to 31st August 1979 is covered by Medical Certificate. Even the Medical Board has endorsed the MC granted by the Assistant Surgeon to the appellant and recommended for regularisation of the leave. Based on the second opinion of the Medical Board, the Board of Revenue has granted leave for the entire spell of absence. It will be anomalous to punish an officer for alleged evasion of joining duty when it has been held by Senior Medical Officers that his absence was due to ill health only."

But the Government have issued orders rejecting his appeal. They have not stated any reason for haing issued orders in deviation of the Commission's advice.

The orders issued by the Government are in violation of the well. and long established convention by the Government themselves that the recommendations of the Commission shall ordinarily be agreed to except where matters of policy are involved or where imperative reasons exist for not accepting them. Neither of them is applicable to the present case.

(vi) In July 1979, the Government in the Health and Family Welfare Department sought the advice of the Commission on the appeal preferred by a Medical Officer, of a Government Dispensary. The Commission, after careful consideration, advised that penalty of stoppage of increment for a period of to years with cumulative effect

imposed by the Director of Medical Services and Family Welfare on the appellant be set aside and the appellant be let off with a warning, as the punishment imposed was wholly disproportionate to the proved charge. The Government however issued orders deviating from the Commission's views, for the following reasons:—

"Even if it is to be agreed with the views of the Commission that the second charge is not proved beyond doubt, there is no doubt about the first charge which has been proved. For the proved charge, the issue of warning is not at all a penalty. At the peak hours of O.P. when patients had not been clreared, the Medical Officer incharge should not have asked the pharmacist to go to the Police Station which has led to the Maternity Assistant dispensing a wrong drug leading to a fatal case. For the above lapse on the part of the appellant the penalty of withholding of increment for two years with cumulative effect imposed by the Director of Medical Services and Family Welfare on Dr. Krishnamoorthy is considered responsible and quite appropriate."

They have therefore rejected the appeal of Dr. D. Krishnamoorthy and issued orders accrodingly. Thouth the Government agreed with the Commission that one of the two charges framed against the appellant was not proved, they have not reduced the quantum of penalty consequent on the reduction in the number of charges held proved against the appellant. The Commission regrets to not that the Government have deviated from the accepted policy that except, where matters of policy are involved, the Commission's advice will be accepted. In this case, not policy matter is involved.

(vii) In March 1980 the Government sought the Commission's views on the Review Petition preferred by a Superintendent, Central Prison, Cuddalore against the orders of the Government removing him from service on the advice of the Commission. When the Commission gave its earlier advice, the petitioner had not submitted his representation to the final show cause notice issued to him even during the extension of time given to him. Only subsequently, the petitioner had given his representations on 10th August 1977 and 7th October 1977, which the Government had however taken in to account while passing the orders of removal from service, without referring them to the Commission. After considering his Review Petition along with his representation referred to above, the Commission advised the Government to modify the punishment of "Removal from Serice" imposed on him into one of "Reversion to the next lower category for three years" as the petitioner was not directly responsible for the death of the convin under reffirence.

But the Government issued orders rejecting the Review petition, in deviation of the Commission's advice. The Government have adduced the following reasons for deviating from the Commission's advice :—

"The Commission's earlier views and the views now rendered on the review petition are based on the same records. The only documents which was not before the Commission when they originally gave their concurrence for "Removal from Service" is the representation, dated 10th August 1977 of the petitioner. This petition does not contain any fresh material relevant to the charges framed against him, warranting revision of the earlier orders of removal from service".

The Government have deviated from the Commission's advice, which should normally be accepted except on matters of policy. After consulting the Commission and after the Commission had advised the modification of the punishment for reasons pointed out by it particularly on the ground that its earlier advice had been given without the petitioner's representations before it at that time, the Commission feels that there was hardly any justification to deviate from its advice and reject the review petition in violation of the well established convention that the Commission's advice should be accepted in all cases except where matters of policy were involved or where imperative reasons exist for not accepting the Commission's advice.

(viii) In April 1980, the Government, in the Health and Family Welfare department, sought the advice of the Commission on the review petition preferred by an Assistant Surgeon, formerly at Government Hospital, Udumalpet, against their own orders stopping her increment for a period of one year with cumulative effect for the proved charge of negligence, carelessness and callousness in dealing with a Cihld Patient. The Commission advised that the punishment imposed on the appellant could not be considered either harsh or disproportionate to the gravity of the charge held proved against her and that the review petition be rejected.

However the Government, in deviation of the Commission's advice issued orders allowing the review petition and setting aside their own earlier orders imposing the penalty, in view of the following extenuating circumstances stated by them:—

1. At the Government Hospital, Udumalpet on 17th August 1966 the needle was broken inside the left buttocks of the child in the process of giving injection. The mother of the child resisted to have any further injection to the child and thereby prevented the Medical Officer to administer any (ATS) injection as a preventive measure.

2. As there was no equipment at the Government Hospital, Udumalpet to give controlled, prolonged anaesthesia to the Child, Medical Officer was unable to remove the needle safely at Udumalpet. She referred the child to Government Headquarters Hospital, Coimbatore for treatment.

3. In spite of the advice given by the Medical Officer to take the child to Government Headquarters Hospital, Coimbatore, the mother of the child insisted on the treatment at Udumalpet itself and did not take the child at once to Coimbatore Headquarters Hospital.

4. The Child died at the Government Headquarters Hospital, Coimbatore on 10th September 1966 (i.e.) after 24 days.

5. No ATS injection was given at the Headquarters. Hospital Coimbatore when the operation was done to remove the needle. Had it been given then, it might have prevented tetanus and the child would have been saved.

6. Without performing an operation, even if the broken needle was allowed to remain, as it was inside the body of the Child, there might have been a possibility of preventing the tetanus from being developed.

The petitioner was, however, warned for not having taken effective precautionery measure as expected of a Medical Officer.

The Government set aside their own orders, imposing on the appellant the penalty of stoppage of increment and let of her with a warning alone, inspite of the Commission's advice which was based on the reports of two independent Enquiry Officers and Director of Medical Services The reasons for the Government's present orders are nothing new which were not there when the original orders were passed.

Incidentally, the Commission desires to point out that the petitioner was originally let off with a warning. But she was charge-sheeted afresh under Rule 17 (*b*) of the TNCS (CCA) Rules at the instance of the Commission in the year 1971 for her contributory negligence and carelessness in handling the case that had led to the death of the child. The Government accepted the advice of the Commission and issued orders in G.O. Ms. No. 302, H. and F.P. dated 7th February 1973 to deal with the petitioner under Rule 17(*b*) of the TNCS (CCA) Rules It does not seem to be appropriate for the Government to let off the petitioner with a warning after setting aside their own orders, especially when the Government revived the disciplinary proceedings under Rule 14 (c) the TNCS (CCA) Rules and issued orders stopping the increment of the petitioner for one year with cumulative effect.

The Commission regret to not that the Government have deviated from the accepted policy that, except where matters of policy are involved, the Commission's advice will be accepted. In this case no policy matter is involved.

(ix) In February 1981 the Government sought the Commission, views on the appeal preferred by a Junior Engineer, P.W.D., against the orders of the Chief Engineer, Public Works Department, stopping his increment for one year without cumulative effect. The Commission advised the Government to dismiss the appeal for the following reasons:—

"The appellant has clearly failed to enforce his authority on the watchman of T.B. even in the matter of producing the T.B. Register, remittance particulars, etc., realising a direct responsibility in this matter, he could have gone in for drastic action against the watchman instead of issuing memos to him. He did not take any such strong action also.

But the Government issued orders deviating from the Commission's advice in regard to the penalty imposed on the appellant. While the Commission did not see any justification to modify the penalty of stoppage of increment for one year imposed on the appellant by the Chief Engineer, the Government decided to reduce the penalty to one of stoppage of increment for three months solely on the grounds that the ends of justice would be met if increment was stopped only for three months. The Governmen had not discussed the merits or grounds on which they had concluded so.

Thus the Government have deviated from the long established convention that the recommendations of the Commission shall ordinarily be accepted except where matter of policy are involved or where imperative reasons exist for not accepting them for no recorded reasons.

(*b*) NON-CONSULTATION WITH THE COMMISSION IN REGARD TO APPOINTMENTS, RULES, REGULATIONS AND DISCIPLINARY ACTION.

(1) In G.O. Ms. No. 2716, Labour and Employment, dated 1st February 1980 the Government issued orders revising the staffing pattern in the Industrial Training Institutes/Industrial Training Centre, fixing ratios and prescribing alternative qualification for appointment to certain non-gazetted posts in the Tamil Nadu Employment and Training Subordinate Service.

The orders were issued without consulting the Commission, though the posts of Foreman Instructors and Supervisor Instructors included in that Service were within commission's purview. As the said

posts are within the Commission's purview, the Commission should have been consulted before issuing the above orders. The Government were requested to state that the circumstances under which the Commission was not consulted then. In reply, the Government stated that the operation of the orders had been stayed consequent on a writ petition.

In supersession of the orders issued in that G.O. the Government have now issued orders in G.O.Ms. No. 2102, Labour and Employment dated 22nd September 1981 revising the ration and qualifications for the posts without consulting the Commission again. In reply to the Commission's objection raised in that regard, the Government have stated that the Commission will be consulted before issuing amendments to the Special Rules consequent on the orders above. However, the Government have not stated the reasons for not consulting the Commission before issuing the executive orders.

It is a clear case of violation of mandatory provision to consult the Commission on all matters relating to methods of recruitment to Civil Services and for Civil posts as required in Article 320 (3) (a) of the Constitution of India. The Commission expresses the hope that similar situation will not arise in future.

2. In G. O. Ms. No. 1129, Finance (Funds) dated 18th December 1980 the Government isused orders to the effect that ratio of 4 : 1 was to be followed between direct recruitment transfer and by promotion for appointment to the post of Assistant Inspector in the Local Fund Audit Department. The orders were issued without consulting the Commission even though the post was within the purview of the Commission and under Article 320 (3) of the Constitution of India, the Commission should have been consulted in the matter of principles of appointment to the post within its purview. The Government were asked to state the circumstances in which the Commission was not consulted in the matter. The Government stated that it was an omission that the Commission was not consulted and that the Commission would be consulted when the rules were amended in this regard. The Commission hopes that such omissions will be avoided in future.

2. EXCLUSION FROM COMMISSIONS' PURVIEW.

(i) During May 1970, the Government approached the Commission among other things to dispense with the statutory requirements of satisfying itself about the physical fitness of candidates selected by it for appointments to various posts in the Tamil Nadu State and Subordinate Services. The Commission did not agree to the above proposal of the Government as the provision existing till then had stood the time and had not given room for any complaints and also as the question could decided by a single body in an uniform manner. Again during 1977, the Government approached the Commission on the same proposal. Then too, the Commission did not agree to curtail its activities which

was in vogue for more than five decades. However, the Government issued orders in G.O. Ms. Nos. 527 and 528 P. & AR (Per-M), dated 16th May 1981 dispensing with the procedure of the Commission satisfying itself about the physical fitness of the candidates selected by it despite the objections raised by it on two occasions. The Commission places on record that a well established procedure that was giving satisfaction to all in a uniform manner has been done away with for no justifiable reasons.

(ii) In October 1980 the Government in Rural Development and Local Administration Department came up with the proposal to exclude the post of Special Officer (Tribal Welfare Kalrayan Hills Block in the Tamil Nadu General Service) from the Commission's purview and sought the Commission's concurrence on their above said proposals stating that the feeder posts viz., Assistant Director of Information and Public Relations department and Deputy Director of Rural Development stood excluded from the Commission's Purview. A majority of posts in the Subordinate Services from which recruitments by transfer are made to posts in State Services are not within the Commissions' purview and yet the higher posts are within the Commission's purview. Moreover in the present case the feeder posts of Assistant Director in the Information and Public Relations department and Deputy Director of Rural Development are under the control of different departmental heads. The Commission pointing out the above position informed the Government that it did not agree to the Government's proposal to exclude the Post of Special Officer (Tribal Welfare), Kalrayan Hills Block from its purview. The Government deviating from the Commission's views issued orders in G.O. Ms. 2064 Rural Development and Local Administration, dated 14th December 1981, excluding the said post from the Commission's purview in view of the special nature of the post. Though the Commission did not agree to the Government's proposals to exclude the post from its purview putting forth valid reasons, the Government issued orders excluding the said post from the Commission's purview inspite of the fact that no policy matter or imperative reason existed in this case. The Commission regrets to note that the Commission's advice made on valid reasons has been turned down on the ground of special nature which is not peculiar to this post alone.

3. APPOINTMENTS.

(i) The Government in the Home Department sought for the Commission's concurrence in 1971 for the reinstatement of Thiru B. R. Viswanathan as Typist in the Police department which post he had resigned in 1967 after putting in only two months of service. The Commission refused to accord its concurrence as it was more than five years since he had resigned his appointment and as there were no dearth of better qualified candidates. The Government agains sought the Commission's concurrence in September 1981 for the reinstatement of

Thiru B. R. Viswanathan as Typist in the Tamil Nadu Ministerial Service on the ground that he was aged about 38 years and had to maintain his family consisting of his wife and four children and that he deserved sympathetic consideration in view of the hard-ships experienced by him due to want of employment. The Commission reiterated its earlier stand as there was no justificable reason to reinstate him in service in view of the the time lag of 15 years since he resigned the job after only 2 months service. The hardships one has to face on account of unemployment are not a rare phenomenon.

The Government deviating from the Commission's views, issue orders in G.O. Ms. No. 2479, Home (Police -VI), dated 29th September 1982 appointing Thiru B. R. Viswanathan as a fresh entrant in the post of Typist in the Tamil Nadu Ministerial Service in the Police Department by relaxing the age-rule in his favour.

(iii) In November 1979 the Government in the Public Works Department sought the Commission's concurrence for the regular appointment of one as Junior Assistant, Thiru S. Sivakumar, brother of (Late), Thiru S. Gurumurthy, Engineering Graduate Apprentice Trainee Public Works Department who lost his life in a drawing accident whil on duty. As brothers of deceased Government Servants are not eligible for employment assistance on compassionate grounds with reference to the Government Orders in this regard, the Commission refused to accord its concurrence for his regular appointment. The Government again sought the Commission's concurrence for the regular appointment of Thiru S. Sivakumar stating that they were prepared to relax that condition in his favour considering the indigent circumstances of the family of the deceased Government Servant. But the Commission against declined to accord its concurrence for his regular appointment in relaxation of the Government Order on the ground that whatever might be the circumstances surrounding the cases, so long as the term near relative' did not include the brothers of the deceased, Thiru S. Sivakumar was not entitled to avail himself of the employment assistance to the near relatives of the deceased Government Servants and that it is open to the Government if they so desired, to enlarge the definition of the term 'near relatives' to bring similar cases within the ambit of those eligible for employment assistance on compassionat grounds. However the Government without accepting the Commission's views, issued orders appointing Thiru S. Sivakumar as Junior Assistant in the Tamil Nadu Ministerial Service in the Public Works Department on regular basis, relaxing the condition issued in G.O. Ms. No. 560, Labour and Employment, dated 3rd August 1977 without any specific reason therefor. The Commission is of the opinion that it not correct for one or two Departments of the Secretariat to relax the provisions of the specific instructions while certain other departments strictly observe them, and that the Government may frame a policy adaptable uniformly by all Departments of the Secretariat.

(iv) The Government in the Commercial Taxes and Religious Endowment sought the Commission's concurrence in December 1979 for the regular appointment of 15 Junior Assistants and one Typist in the Survey and Land Records Department who had been working temporarily for more than 12 years as on 2nd May 1974 by excluding the posts from the Commission's purview, As there was not any justifiable reason for such appointment the Commission refused to accord its concurrence for the Government's proposal. The Government however issued orders in G. O. Ms. No. 627. Commercial Taxes and Religious Endowments dated 3rd June 1982 over-ruling the objections raised by the Commission and excluding the posts of Junior Assistant and Typists in the Survey and Land Records departments from the Commission's purview with effect from 2nd May 1974 so that the temporary Junior Assistants and Typists of that department could be regulary appointed without the concurrence of the Commission. The action of

the Government in not accepting the Commission's advice and regularising the temporary services of the eight Junior Assistants is not Justifiable when the Government had ordered 2 Special recruitment in 1977 and 1981 solely for regularising the temporary employees under the State Government in the category of Junior Assistant, Typist and Steno-typists and those 8 Candidates had not at all taken steps to avail the opportunity given to them to appear for those special recruitments and qualify for regular absorption, thus defeating the very purpose for which those special recruitments were ordered. The Commission trusts that there will be no such exclusion—atleast in future.

ACKNOWLEDGEMENT

The Commission records its appreciation of the willing Co-operation extended by various Trusts, Educational Institutions and their officers in the matter of providing suitable accommodation for the various examinations held by the Commission.

The Commission is also grateful to the examiners and expert advisers who inspite of their personal inconveniences, readily accepted the Commission's invitations and assisted it in making the selections of officers for appointment to the various posts under the State Government.

Finally, the Commission places on record its appreciation of the loyal and efficient service rendered by its staff through out the year.

SUGGESTIONS GIVEN BY THE EXAMINERS IN THE BRIEF REPORTS OF THE CANDIDATES FOR THE POSTS INCLUDED IN GROUP III SERVICES 1981.

English Composition—

(1) "As Group III is only of the Pre-University Standard it is desirable to have comprehension (from prose) instead of the paraphrase".

(2) "I would like to suggest, if permitted that an exercise like" story developing from hints may be included omitting paraphrasing a poem, since in my view, paraphrase has absolutely nothing to do with a Government Office work for which candidates are selected.

General Knowledge :—"I want to give one suggestion to the Commission to minimise the work, printing and time, of the 300 papers I reviewed nearly 250 students wrote in Tamil Medium and 50 in English medium. The students who wrote in Tamil medium did not touch English medium as it is optional Consequent to this nearly 8 papers (16 pages) in answer book were wasted. So printing charge, paper, etc., are made waste. So I wish to suggest that the students who wish to take Tamil and English as theirmediums must be noted totally and you can print separate Book containing 16 pages only for Tamil medium students. By this method the Commission could reduce half of the work and save 50% of the cost of the printing".

General Knowledge :—"I would like to suggest that in future the the number of question in General Knowledge may be reduced".

General Knowledge :—"This time, only the scoring Key (Correct Answers) is given to the examiners. It is not sufficient to value General Knowledge objective type papers. In future necessary instructions for the objective type questions and answers may be given for the valuation of answer scripts in General Knowledge to the concerned examiners so that valuation will be uniform".

General Knowledge :—"All the 200 questions belong to one type only, demanding one of the four answers. The correct answer among the four answers supplied has to be identified guessing and gestuculation among the candidates are possible. Some questions eliciting answers directly from memory, matching type, etc., could have been included.

Language Translation and Composition.—The duration for this paper may be reduced to two hours from three hours number of questions may be increased.

Language Translation and Composition.—"To gain more uniformity in the standard of valuation Chief examiners Instructions may be more concrete".

Mathematics.—"Let me add that papers may be set with due regard to objective type of questions".

Indian History.—"Instead of offering six questions in section A and five question in section B the candidates may be uniformly asked to answer any five questions in section A and B respectively as to avoid the confusion in the Number of questions and to avoid excess answers".

THE REPORTS ON THE PERFORMANCE OF THE CANDIDATES GROUP VI SERVICES—FOREST APPRENTICE OF THE TAMIL NADU FOREST SUBORDINATE SERVICE—1981.

இந்துமத இணைப்பு விளக்கம்

1. இவ்வுலகில் பல நூற்றாண்டுகளுக்கு முன் ஆதி அந்தம் போன்ற படைப்பு என்று சொல்லுவதற்கு சமயம் என்று பெயர் இந்துக்களின் கோவிலாக வழிபட்டு வருவது இந்து சமயமே, சமயம் ஒரு மதத்தின் அங்கம்.

2. சமயம்— சம்மயம் கடவுள் எங்கும் நிறைந்தவர். இந்து சமயம் இரு பிரிவுகளைக் கொண்டது. சைவமதம், சமண மதம் இந்த இரு மதங்களும் நெற்றியில் ராமம் போடுவார்கள். ஒன்றும், மூன்றும் போடுவார்கள். களப்பிரம் மூலம் ஏற்பட்ட சைவம், சமயம், சமயர்கள் ஏற்படுத்திய வைணவமும், இவ்விரண்டிலும் பிரிந்த மதம் இந்து மதம். இவைகளின் கூட்டுத் தன்மையே சமயம்.

3. முருகன்—முரு கன் கன் என்றால் காப்பாற்றுபவர். வள்ளிக் கிழங்கைத் தோண்டி எடுக்கும்போது ஒரு பொருள் கிடைத்ததாம். அது தான் முருகன். முதலில் பிறந்த கணபதி சுறுசுறுப்பில்லை என்பதற்காக இவன் பிறந்தான்.

4. பிற்பத்தி என்பது மற்ற பெண்களை (தன் மனைவியைத் தவிர) நேசிப்பது பற்றி எடுத்துச் சொல்வது. பிரபத்தி கடவுள் அவதாரங்களின் கடைசி எல்லை. அதன் சிறப்பு நாரதர் மையிலை மலையை ஆட்டியது. சிவன் பெருவிரலால் அழுத்தியது. கடவுளை மனதில் கூட நினைக்காமல் மற்றவற்றை நினைத்து செயல்படுவது பிரபத்தி. பிரன் வை உ பிரணவமே பிரன் என்பதற்கு ஆன்மாவின் ஆவி என்று பெயர். பிரணவம் என்பது பிராமணர்கள்.

5. சைவ நெறி, மகாத்மா காந்தி போன்ற பல பெரியோர்கள் தோன்றிய காலத்திலிருந்தே தோன்றியது. மனிதர்கள் உண்டு உறங்குவதைத் தவிர வேறுவழியில்லாமல் இருந்தார்கள். பிறப்பு இறப்பு என்னும் வேலைக்கே இடமில்லாமல் உண்டு உறங்குவதை தொழிலாகக் கொண்டிருந்தனர்.

6. பகவத் கீதையின் கதை.— ஆடைகள் சிறிதுமின்றி, அந்தப் புனித நீரை அசுத்தப்படுத்துவதைக் கண்ணபிரான் பொருக்காமல் ஆடைகளை எடுத்து ஒளித்து வைத்தானே தவிர, திருடவில்லை. சைவசித்தாந்தம் சைவ குறவர்கள் என்றும், சைவகுறத்திகள் என்றும் பலவாறு விரிவுரை தருகிறது. சம்பந்தர் என்பவர் ஒரு குளக்கரை ஓரத்தில் பிறந்து கிடந்தார். சிவனும், சக்தியும், காமதேனுவில் பயணம் செய்தபோது ஞானப் பால் கொடுக்க திருப்புகழ் பாடினார். சிவபால இருதயருக்கும், மருணிக்கியாருக்கும், திருஞானசம்பந்தர் அவதரித்தார்.

7. டன்டின் ஒரு இந்துமத ஆசிரியர். கீதை எழுதியவர். ஐம்புலனை அடக்கி தன் ஆவியானது (அல்லது) உயிரானது கண், காது வழியாக செல்லாமல், கபால மண்டலத்தின் வழியாக சென்றால் அவன் முக்தி அடைந்து விட்டான் என்று பொருள்.

8. ஆலயம் என்றால் கோயில்தான். ஆலயத்திற்கு இதைவிட சான்று என்ன வேண்டும்.

9 பரமாத்மா என்பது கழுத்துக் கீழே, தொப்புளுக்கு மேலே தாமரை வடிவம் போன்று உள்ள இதயம். அதில் பல அறைகள் உண்டு. அவற்றின் நடுவில் ஒரு துவாரம் உண்டு. அந்த துவாரத்தில் தான் எல்லா உயிர்களும் உண்டு. அதுவே பரமாத்மா.

10. சண்டேசுவரர் வழிபாடு, சூரியவழிபாடு அது ஒரு வகையான வழிபாடு. அது சனீசுவர வழிபாடு. இறைவன் உண்டா இல்லையா என்று கேள்வி கேட்கும் காலம் வந்துவிட்டது இந்த நிலை நீடித்தால், மக்கள் மத்தியில் கடவுள் மீதுள்ள பாசம் குறைந்து விடும்.
